

You Came By My Way

Gen Rosso

You came by my way
And you cheered my life
In just a short time
Our paths merged into one.

We may drift apart
Yet you'll always be near
In two different worlds
But our life remains the same.

Love is the life we're living
For us the only way
This feeling of oneness with you
Brings to us heaven on earth.

Our friendship has taken a new meaning
We may not see each other for long
But I know that we have loved
And this means the most
This means the most to me.
