

# Freedom Walk

Gene Clark

Now and then the chill of fear  
Drums demonic discords near  
With hate the innocence of youth  
Is raped before the age of reason  
Even sees the truth

Beautiful is beauty's way  
Who told the guru what to say  
It wasn't Christ who had a better way  
'Cause He knew that ultimately  
The Mojo hand is gonna come into play

But he still had a better way

'Cause he would walk that walk  
He would take a sign  
And make the way down the freedom walk  
And He knew how to make that sign  
He knew how to make people see  
That were blind down on the freedom walk

Skid row faces having not  
Swirling graceless empty in thought  
Soaked in wine until they rot  
Meanwhile you pay their way  
To not feel what they've become

Enough is enough say Vietnam  
The cost of all those war machines and bombs  
Spent on murderous insanity  
Was enough to fill 1968's book of humanity

We're gonna walk that walk  
And you know we're gonna talk that talk  
Down on the freedom walk  
The continentals voice is finally sound  
And surface up from underground

Truth and courage newly they have found  
United now to bring those senseless boundaries down

You see them they all are walking their walk  
On top of the wall they're all just  
Talking their talk they talk of freedom walk  
All the spirits that have ever been bound  
Are coming in and they are hanging round  
'Cause they want that walk, walk, walk

So get away from the chill of fear  
It summons up demonic discords  
And they want to rape with hate  
The innocence of youth  
And take away their eyes before  
The age of reason can see the truth

The spirit is that we well hide  
The spirit is something some people think

That they can pay every Sundays hat  
And when the gates of Heaven open  
They have bought that

I wonder when they walk that walk  
Do they know how to make the sign  
And talk about the freedom talk  
Oh, oh, oh, oh, oh  
They know how to make that sign  
And they're gonna tell their mind  
They dug the freedom walk  
Oh, woh

Continental's voices sound  
Surface up now the underground  
Truth and courage can be found  
The world can unite to bring  
All those senseless boundaries down
