

## Sister Moon

Gene Clark

Hey sister moon you shine and shine  
You say you need my lovin but you want to be free  
And you've made up your mind  
Ah sister moon I am your sun  
You have your independence

Except for the one that you depend on  
You say you're tired you'll be living without me  
You know what it is to be alone  
You'll find yourself another companion  
You'll never need to be back home

Ah sister moon I am your sun  
You have your independence  
Except for the one that you depend on  
You say you're tired you'll be living without me  
You know what it is to be alone  
You'll find yourself another companion  
You'll never need to be back home  
Sister moon sister moon
