

Shaving My Neck

Gene Loves Jezebel

She'll be sleeping, no doubt
She'll be tired, tired out
Won't you speak for yourself
Will you never be heard

Do your friends and neighbors
Regard you as a threat
I'll just consume be silent and die

I'm just shaving my neck
For maximum effect
I'm just shaving my neck
For maximum effect

Please release me, ah, let me go
Oh, please release me, ah, let me go

I don't love, love you anymore

There's no love, there's no love
There's no love, there's no love
There's no love, there's no love
There's no love, there's no love

I'm just shaving my neck
For maximum effect
I'm just shaving my neck
For maximum effect
