

# Billy You're My Friend

Gene Pitney

Billy you're my friend  
Let me tell you what I saw  
I saw you in the park  
Walking mysteriously in the dark

When I looked again  
I saw you weren't alone Bill  
You had a girl by your side  
Was then I realized she was mine

I was hurt  
Eyes could not believe what they saw  
Ears could not believe what they heard  
But they just bent with every word they heard

It's absurd cos  
Billy you're my friend  
We grew up together  
How could you do this to me

Billy you're my friend  
Now that I've told you what I saw  
I think I'll be on my way  
There seems to be nothing more to say  
Billy you're my friend
