

# How Can You Love Somebody

Gene Pitney

How can you love somebody  
Who has broken your heart and left you to cry alone?  
How can you love somebody  
Who is only a dream man, whose heart you will never know?

I wanna know the answer, is it all that hard to love?  
I wanna know the answer but I don't know where to turn

How can you love somebody  
The way I love you? Without praying it never ends

I wanna know the answer is it all that hard to love?  
I wanna know the answer but I don't know where to turn

How can you find forgiveness?  
There are somethings just too hard to forgive too easily  
How can you find forgiveness?  
God, I give it a try if you just come back to me
