

# I've Got Five Dollars And It's Saturday Night

Gene Pitney

Hey!

Well I've been a-working hard the whole week long  
Tonight I'm gonna have some wine, women and song  
Gotta work next week, but that's alright  
I've got five dollars and it's Saturday night

Gonna have fun tonight  
Gonna get right tonight  
Everything will be all right  
'Cause tonight is Saturday night  
Hey!

There's music and a-dancin' and a-flirtin' and fun  
It's gonna go on until a way past one  
I'm a-gonna go where the lights are bright  
I've got five dollars and it's Saturday night

Let other folks worry what the future might bring  
Just to sit and worry won't get you a thing  
My pants may be ragged but that's all right  
I've got five dollars and it's Saturday night
