

I've Got Five Dollars And It's Saturday Night

Gene Pitney

Hey!

Well I've been a-working hard the whole week long
Tonight I'm gonna have some wine, women and song
Gotta work next week, but that's alright
I've got five dollars and it's Saturday night

Gonna have fun tonight
Gonna get right tonight
Everything will be all right
'Cause tonight is Saturday night
Hey!

There's music and a-dancin' and a-flirtin' and fun
It's gonna go on until a way past one
I'm a-gonna go where the lights are bright
I've got five dollars and it's Saturday night

Let other folks worry what the future might bring
Just to sit and worry won't get you a thing
My pants may be ragged but that's all right
I've got five dollars and it's Saturday night
