

Shady Lady

Gene Pitney

Shady lady brings me down
Day and night hiding out
She got no reason to be shy
Pretty face no reason to hide her reality
And like a mystery she haunts me

Shady lady in disguise
Let your hair hang down on this heart of mine
You're wasting so much time

Every day I see it more
The masquerade is silly cos your personality
Is like a symphony before me

(2x)

Shady lady in disguise
Let your hair hang down on this heart of mine
We're wasting so much time
