

Always near you Nowhere To Hide

Gene Simmons

I've just begun since you've gone, to understand I'm the only one

And if you cross yourself at night

I'll come and see you, don't run and hide

I'm always near you, I'm always near you, near you

And if you turn out the light (turn out the light)

Don't think you'll hide behind the night (behind the night)

And if you touch me, I might

Might turn and see you, don't run and hide

I'm always near you, I'm always near you, near you

I've just begun since you've gone (since you've been gone)

To understand I'm the only one (the only one)

And if you cross yourself at night

Don't run and hide, you'll be the only one

I said don't try to hide for me and everyone

Don't try to hide, you'll be the only one

I said don't try to hide for me and everyone

Everyone, oh everyone, oh everyone

Everyone, oh everyone, aha, oh everyone

Everyone, oh aha, aha, everyone, oh everyone, aha, oh aha
