

## Five Days, Five Days

Gene Vincent

(One day, two days, three, four, five)  
A-that's how long that she's been gone  
And that's a long time  
Five days, five days  
Since you walked out the door  
Won't you please come home  
I couldn't stand five more

Well the first day after she left me  
I laughed and told my friends  
That he'd be back before  
The sun is settin' low again  
Five days, five days  
Since you walked out the door  
Won't you please come home  
I couldn't stand five more

Well, the second day after she left me  
I started to have my doubts  
I wondered if she was comin' back  
Really had checked out  
Five days, five days  
Since you walked out the door  
Won't you please come home  
I couldn't stand five more  
(One, two, three, four, five days more)

Well, the third day after she left me  
I started to watch the door  
Before the day was over  
I began to walk the floor  
Five days, five days  
Since you walked out the door  
Won't you please come home  
I couldn't stand five more

Well the fourth day after she left me  
I really began to sweat  
She should have been back days ago  
But she ain't got back yet  
Five days, five days  
Since you walked out the door  
Won't you please come home  
I couldn't stand five more  
(One, two, three, four, five days more)
