

It's No Lie

Gene Vincent

This is no lie, if you told me to lie
I love just you
Give me a chance and I'll prove that it's true
Well is no lie, I still alone
Should I tell you how-ow, my heart just moans

Well I never felt this way before
And I just can't keep the secret anymore
A few little words is, all I need
Like "I love you" will set, my heart at ease
This is no lie, if you told me to lie
All your life
Over and over and over again (Now)

This is no lie, if you told me to lie
I love just you
Give me a chance and I'll prove that it's true
Well is no lie, I still alone
Should I tell you how-ow, my heart just moans

Well I never felt this way before
And I just can't keep the secret anymore
A few little words is, all I need
Like "I love you" will set, my heart at ease
This is no lie, if you told me to lie
All your life
Over and over and over again
