

## The Day The World Turned Blue

Gene Vincent

Love is like a window pane  
The sun shines in, but it stops the rain  
They say that love is blind  
To me this is so true  
The day the world turned blue

A pill, i thought everything was funny  
A pill, and i thought our walks were sunny  
Look what they've done to you  
I swear i never knew  
The day the world turned blue  
The day the world turned blue...
