

## Baby Me Baby

Gene Watson

Baby me, baby, you know I've had a bad day  
So baby me, baby, chase my cares away  
Say I'm great and I'll make it though it may not quite be true  
Baby me, baby, as only you can do

Hold me close, let those sweet lips kiss my wounds and make them right  
Tomorrow will be better but just help me through tonight  
Sweet baby, don't start cryin' or I'll start crying too  
Baby me, baby, as only you can do

Hold me close, just let those sweet lips kiss my wounds and make them right  
Tomorrow will be better but just help me through tonight  
Sweet baby, don't start cryin' or I'll start crying too  
Baby me, baby, as only you can do  
Just baby me, baby, as only you can do
