Baby Me Baby

Gene Watson

Baby me, baby, you know I've had a bad day
So baby me, baby, chase my cares away
Say I'm great and I'll make it though it may not quite be true
Baby me, baby, as only you can do

Hold me close, let those sweet lips kiss my wounds and make the
m right
Tomorrow will be better but just help me through tonight
Sweet baby, don't start cryin' or I'll start crying too
Baby me, baby, as only you can do

Hold me close, just let those sweet lips kiss my wounds and mak
e them right
Tomorrow will be better but just help me through tonight
Sweet baby, don't start cryin' or I'll start crying too
Baby me, baby, as only you can do
Just baby me, baby, as only you can do
