

## Don't Look At Me In (that Tone Of Voice)

Gene Watson

Won't you talk to me , my darlin',  
Tell me what a fool I am  
Dry your eyes, sweetheart,  
They're still a little moist

I'm so sorry that I've cheated,  
Please forgive me if you can  
Just don't look at me  
In that tone of voice

You refused me when I craved  
A woman's soft carress  
And my frame of mind was at  
An all time low  
I reached out for someone else  
To fill my emptiness  
But, I didn't find it there  
So I came home alone

Don't give me that silent treatment,  
Lose your temper, call me names  
Tell me that you could have  
Made a better choice  
Run me down, I've got it coming,  
Say that I should be ashamed  
Just don't look at me  
In that tone of voice  
No, don't look at me  
In that tone of voice...
