

Hold Me

Gene Watson

I'll be your companion
Stay right here by your side
And I will never let go
Until the day you die

Here 'til the end
The best love you'll find
If you'll just hold me

Some say I'm trouble
From the first touch of your hand
But I can bring you comfort
And I'll always understand

I'll quench your thirst
In the desert sand
If you'll just hold me

Oh, I am just a bottle
And I'm only made of glass
But I am full of courage
To help you forget the past

I'll be strong when you're weak
If you'll give me a try
Oh, with your help I can rule your life
If you'll just hold me

Temptation is my Kingdom
And I rule it day and night
Oh, I can take two wrongs you've done
And make them seem alright

I'll conceal the truth
'Til you believe a lie
If you'll just hold me

Oh, I am just a bottle
And I'm only made of glass
But I am full of courage
To help you forget the past

I'll be strong when you're weak
If you'll give me a try
Oh, with your help I can rule your life
If you'll just hold me

I'll be strong when you're weak
If you'll give me a try
Oh, I can be the last love of your life

If you'll just hold me
If you'll just hold me
Won't you hold me?
Oh, please hold me
