

Hold That Thought

Gene Watson

Picture this a small cafe a table set for two
The sweet sound of a violin across the room
The blessing of candle light that sparkles in the wine
Hold that thought with me in mind.

Hold that thought and honey would you dance with me
Just close your eyes and think about how it should be
Picture this white silver sand a golden moon on high
A harbor where the water's clear as your blue eyes
A tender kiss that fills the night and stops the hands of time
Hold that thought with me in mind.

Hold that thought and honey if the feeling's right
Let's leave this bar and make those pictures come to life.

Hold that thought.
Hold that thought of me tonight
