

Memories To Burn

Gene Watson

Lady, lately you've been gettin' under my skin
I hope I don't have to say, there she goes again
Please don't be another lesson I'll have to learn
'Cause I've got memories to burn

Please don't make me have to think about you when you're gone
I've had enough to think about before you came along
If you're just makin' memories you'll have to wait your turn
'Cause I've got memories to burn

Lately maybe you've been stringin' me along
But if you plan on writing to me after you're gone
Just address your memories to whom it may concern
'Cause I've got memories to burn

Please don't make me have to think about you when you're gone
I've had enough to think about before you came along
If you're just makin' memories you'll have to wait your turn
'Cause I've got memories to burn

Well, if you're makin' memories you'll have to wait your turn
'Cause I've got memories to burn
