

# Nothing Sure Looked Good On You

Gene Watson

You found your greener pastures  
In a mansion on the hill  
With a flashy foreign car to drive  
And lots of time to kill.  
Now my mind keeps on remembering  
The days of me and you  
But when we were down to nothing,  
Nothin' sure looked good on you.  
You said you needed simple things  
That I had plenty of  
And through the days of dark and rain  
We could always live on love.  
With his style in life he lured you  
And you could not refuse  
But when we were down to nothin',  
Nothin' sure looked so good on you.

When you honeymooned in Paris  
It was carried on the news  
And I heard you laughed your cares away  
On a Caribbean cruise.  
You were always one for dreamin',  
Now your dreams can all come true  
But when we were down to nothin',  
Nothin' sure looked good on you.  
You said you needed simple things  
That I had plenty of  
And through the days of dark and rain  
We could always live on love.  
With his style in life he lured you  
And you could not refuse  
But when we were down to nothin',  
Nothin' sure looked so good on you.  
Yes, when we were down to nothin',  
Nothin' sure looked so good on you...
