

## Should I Come Home (or Should I Go Crazy)

Gene Watson

I wonder if you've had the time it takes to think it over  
To sort out all the feelings in your mind  
Sometimes I think you've found someone to do your thinking for  
you

'Cause lately you've been showing all the signs

Should I come home, or should I go crazy?  
I'm beggin' you please, make up your mind  
If you love me, then think it all over  
So make up your mind, or I'll lose mine

Last night when I came by, I rang the bell and no one answered  
But I heard voices whisper through the door  
Now I'm not sure if anyone was home to do the talking  
'Cause lately I hear voices more and more

Should I come home, or should I go crazy?  
I'm beggin' you please, make up your mind  
If you love me, then think it all over  
So make up your mind, or I'll lose mine

Should I come home, or should I go crazy?  
I'm beggin' you please, make up your mind  
If you love me, then think it all over  
So make up your mind, or I'll lose mine
