

# The Man An' Me And You

Gene Watson

Wake up Darlin, I've gotta go  
The boss just called an he's got me low

Pick-up in Texas, drop-off in Maine  
Then Ill then head back home to you again  
Well, I hope you understand and miss me too  
I'm just workin for the man an me an you

There's something about the way he shakes my hand  
And says, Man, thank you  
And then my paycheck reflects his gratitude  
And that's enough with your sweet love  
To keep these wheels a turnin  
Down the road of life and on the highway too  
While I'm workin for the man an me an you

Hello Darlin, I had to call  
I'm just a mile outside of Arkansas

And I was thinkin, when I get home  
About making love to you all night long  
But I'm hold you with my heart until I do  
An keep workin for the man an me an you

There's something about the way he shakes my hand  
And says, Man, thank you  
And then my paycheck reflects his gratitude  
And that's enough with your sweet love  
To keep these wheels a turnin  
Down the road of life and on the highway too  
While I'm workin for the man an me an you

Down the road of life and highway too  
I'm just workin for the man an me an you
