

## New Amusements

Gene

You are here to serve me  
Shut up  
Sit down  
Begin, observe me  
I see things when I'm alone  
So choose your favorite weapon  
From this list I have assembled  
Do it fast  
Then take me slow

A whole lifetime led  
With every minute spent  
Trying to feel things  
No one has ever felt

I can bring you solace  
On the bureau in my office  
I dream of you alone

So choose your favorite weapon  
From this list I have assembled  
Do me fast  
Then take it slow
