

It Must Be Tough

General Public

Maybe you will and maybe you won't
Maybe you care, but hey I'd like to think you don't
Maybe you're right and maybe I'm wrong
Maybe you stay up worrying about it all night long?

Danger, there's a man inside
Watch out, what are you trying to hide?
Oh God it must be tough
Danger, there's a man inside
Screaming like his heart's on fire
Oh God it must be tough

When you've taken all that you can get
And you've still not had enough
When you've taken all your medicine
But you're still feeling rough
How to find the time in one short life
To deal with all this fuss?

It must be tough, tough, tough
It must be tough, tough, yeah, yeah
It must be tough

Maybe it's hard for you to see
Maybe it's hard, but hey, that's how it's meant to be
Never get nowhere on the fence
Maybe we all need something we can push against

Danger, there's a man inside
Watch out, qhat you trying to hide?
Oh God it must be tough
Danger, there`s a man inside
Screaming like his brain`s on fire
Oh God it must be tough

When you've had as much as you can take
But you still not had enough
When you've taken all your medicine
But you're still feeling rough

Oh, it's as hard as it is true
When it comes to you too easy
It goes away the same way too
And it must be tough, but you know what you have to do
Cause it's a long long way to Heaven
And you know you'll only get there
If you have the funk and nerve to push on through

It's name
You must be rough, ay
You mu` be tough, ay
You must have come here to call my bluff ahh,
But General Public say the article stuff, boom

Crowd of people say they can't get enough ay
Weh, deh deh deng boom
Tell them again

Watch out!
Oh God it must be tough
Because we ruffer dan ruff and we tuffer dan tough ay
Danger, there's a man inside
Screaming like his sould`s on fire
Oh God it must be tough

When you've taken all that you can get
And you've still not had enough
When you've taken all your medicine

How to find the time in one sweet life
To deal with all this fuss?

It must be tough, tough, tough
