

# English Dream

Generation X

I once had a dream  
A feeling inside  
A yearning so bad  
You have to shout it out

Hey, kid, look at me  
You can make it real  
You can get it if you want

Hey, you know when  
When I first started out  
They shut all the doors  
But I laughed at all the doors  
And I kicked them down

Here's my energy for you  
Step into the light  
While you still feel young

When I look in your eyes  
And I reach for your hands  
Well, I'll do anything  
To make you understand

That I'm still the seeker  
For your English dreams  
Don't you give up trying  
And don't you let me down

The English dream  
Don't let me down  
The English dream  
Don't let me down

The English dream  
Don't let me down  
The English dream  
Don't let me down

Tell them

I look in your eyes  
And I reach for your hands  
Well, I'll do anything  
To help you understand

That I'm still the seeker  
For your English dreams  
Don't you, don't you give up trying  
And don't you let me down

The English dream  
Don't let me down  
The English dream  
Don't let me down

The English dream

Don't let me down  
The English dream  
Don't let me down  
The English dream  
Don't let me down
