

Love Like Fire

Generation X

Well I met her downtown
I think we'd spoken
I think we'd spoken once before
The sound was loud
I said yeah, I said yeah give me more
And something deep inside
Started engines of desire
And y'know there ain't a chance
Of stopping love,
Love like fire,
Love like fire

She was great so great to be with
I felt so good when she was there
My time was coming at me
And I swore I'd never care
And I thought there ain't nothing else
All the poets here are liars
When you're chasing something real
You get burnt by
Love like fire,
Love like fire

I thought she likes the rest
And I know I'm in control
I can take it or I can leave it
You can forget that lovers role
The world you thought you knew
Gets strangled by the wire
And you crash while running blind
Destroyed by love,
Love like fire,
Love like fire,
Love like fire
