

It Keeps You Up

Generational

I'm sick of all this waiting
And people telling me what I should be
What if I'm not so crazy?
Maybe you're the one who's wrong, not me

So whatcha gonna do, whatcha gonna say
When we're standing on top and do it our way?
You say we got no future, you're living in the past
So listen up, that's my generation

(Hey ho, let's go)
It's going down tonight
(Hey ho, let's go)
We're gonna do it till we die
(Hey ho, let's go)
'Cause I, I, I've got no reason to apologize
That's my generation

I don't need to say I'm sorry
I do what everybody wants to do
It's not so complicated
'Cause I know you want the same thing too

So whatcha gonna do, whatcha gonna say
When we're standing on top and do it our way?
You say we got no future, you're living in the past
So listen up, that's my generation

(Hey ho, let's go)
It's going down tonight
(Hey ho, let's go)
We're gonna do it till we die
(Hey ho, let's go)
'Cause I, I, I've got no reason to apologize
That's my generation

Listen

Don't need to say I'm sorry
It's not so complicated
'Cause I know you want the same thing too

(Hey ho, let's go)
It's going down tonight
(Hey ho, let's go)
We're gonna do it till we die
(Hey ho, let's go)
'Cause I, I, I've got no reason to apologize
That's my generation

(Hey ho, let's go)
That's my generation
(Hey ho, let's go)
We're gonna do it till we die
(Hey ho, let's go)
'Cause I, I, I've got no reason to apologize
That's my generation
