

## Say for Certain

### Generational

Ask me to fetch your crown  
Like the others would  
Don't pretend we haven't seen your faded curtain  
Hide behind your first impression  
Leave this town for good

Ask me how and I wish I could stay for certain  
All the time you passed them by  
They turned their heads to look  
Watch them while they get in line to be your servant  
We can fake their native sounds we may get by their world

Call me out on things you write that I am certain

Call me out to say your life as if to say I could  
Don't pretend we haven't seen your faded servant  
We can fake that native sound  
And make it like they would  
Call me out on things I write that you inverted  
Hide behind your first impression

Leave this town for good  
Ask me how and I wish I could say for certain
