

It's Yourself

Genesis

Stepping out the back way
Hoping nobody sees
Feeling can be easy
Think how I feel

What will (can) you say?
What will you do?
Why can't you see?
It's yourself I love

Don't you know I'd like some answers
You could give me a call
I hardly know the reason
And I really feel no good at all

Where will you go?
Where will you be?
Where can I try?
It's yourself I love
