

# Not About Us

Genesis

1. A little piece of something  
Falling gently down, down, down  
No-one understands you like I do

I'd rather be beside you  
Everything we know so well  
Tell me what you feel now  
Show me what you think of it

R: It's not about us anymore  
It's all about the reasons that we think we're fighting for  
It's not about hate, it's not about pain we always feel  
I know we have our problems but we're not the only ones  
It's not about you, it's not about me  
It's not about anger, it's more about the loneliness we feel

2. How can I begin to ask for some forgiveness  
For all that we have taken  
There's nothing left now

Just a little piece of something  
Falling gently down, down, down  
No-one understands you no, no  
Like I do  
There's nothing left now

R: It's not about us anymore...

3. It's not about us  
It's not about hate  
It's more about the loneliness  
we feel, can you feel it

It's not about anger  
It's not about wanting  
I know we have our problems  
But we're not the only ones, we're not the only ones  
It's not about you, it's not about me...
