

# There Must Be Some Other Way

Genesis

You're no longer part of my life  
I must remind myself again  
Too much has happened to us to cause each other pain  
It's over now, there's too much guilt we share  
Once there would have been a time for talking and learning

There must be some other way  
To get where we have to go  
There must be some other way  
Please show me another way  
Once it would have been so easy to do what we have to do  
There must be some other way  
Please show me another way

Are we no more than parts in a play  
Letting other people, strangers say our lines ?  
To think it should come to this after all these years  
What was mine and what should stay behind  
Once there would have been a time of sharing, of caring

There must be some other way  
To get where we have to go  
There must be some other way  
Please show me another way  
Once it would have been so easy to do what we have to do  
There must be some other way  
Please show me another way

There's nothing much left to say  
We have said it once and said it all again  
This time we have gone too far, it could never be the same  
It's time to carry on create new lives  
Once we promised we would stay together forever

There must be some other way  
To get where we have to go  
There must be some other way  
Please show me another way  
Once it would have been so easy to do what we have to do  
There must be some other way  
Please show me another way
