

Take it

Genitorturers

I got the word of hurt, speakin' it to your skin, give it to all who follow, when the fury begins Get on your hands and knees, time to move with the damned Get off your ass and let me show ya how your problems begin

Cuz you take it, you take it, you're wantin' it all You take it, you take it, now you're goin' to fall

And say 'Shoot me hard, and give me the juice' I say, you take it, you take it, now I'm turnin' you lose, that's right

I took it too far What you wanna say? I took it too far Whatya gonna do?

You lost the bargain with me, hit the hole heavy, I want it passionately, I know you're over-easy, tha end is coming with me you can't refuse, yeah give your pleasure to me, cuz now I own ya baby,

You take it, you're rotten to the core, take it by my, yeah You take it, you're such a perfect whore, you take it, baby, till you come in me, no you take it

You wanna move it, foam it, baby, up and down, I'm gonna work it, work it, till you wantin' it out Cuz everyone needs a little more friction they wanna know about this sturdy contradiction

Tell, you take it, you take it, yeah, I gonna know that you take it, you take it, and you'll never let go

Say 'Shoot me hard, baby, give me the juice' You take it, you take it, 'turn me lose'

You take it, you're rotten to the core, take it by my, yeah You take it, you're such a perfect whore, you take it, baby, till you come in me, no

You take it (Yeah, yeah, yeah) You know you wanna Take it (Yeah, yeah, yeah) You know you gonna Take it (Yeah, yeah, yeah) You know you gonna Take it (Yeah, yeah, yeah) You'll never see, unless you want to see

You take it (You push it too far to soon) You take it (You burn on my hands) You take it (Your arrogance is lost) You take it (Get ready) You take it, you take it, take it
