Gentleman

Intro:

I'd rather be saved by Jah Jah  
Yeah yeah yeah  
Than to have mankind as my savior

R:

Dem never sees to amaze me  
Strange things they bring to us  
And only Jah Jah can save we  
Now who else can we trust  
Babylon dem words ya dem a tuff like iron  
Trodding through the hills now with the powers of a lion  
No looking back we pon the highway to zion  
No doubt about it Jah love we a relay on  
From you see me pon the subway  
Everything you see me do me do it love way  
I see dem going down grudge way  
Iniquity can't touch we

R:

Babylon now what me see you try to tek away Jah star  
Left me to wonder who really are  
For a stick a marihuana we get lock behind a bar  
Jah children reputation you a scar  
Smoking kills that you mark on your cigar  
Dangerous like a bullet from an s-sellar  
But tell me how much innocent life you tek so far  
And all those victims of your wars

R:

Question me ask so why you don't answer dis  
How comes you have the youths dem turn and a twist  
Have dem ina the jungle like a tarzan pon a wist  
Still dem awaiting Jah wonderful bliss  
Ask dem already so what left to come  
We already see the destruction from your gun  
Babylon upholding a falling kingdom  
Still we chant down rome and beat the kette drum
