

# Bullet

## Genuflect

Yeah- Got one bullet for right the wing  
And one bullet for the left  
One bullet right between your eyes  
Read between your lies-  
Pillow talking while you deal death

One bullet for redemption  
And one bullet for revenge  
And one bullet for the filthy rich who don't give two shits about anyone "beneath" them

One bullet for the guilty  
And one bullet for the damned  
And one bullet for the man in charge,  
Who still remains at large,  
Who had the whole slaughter bath planned

One bullet for your first born  
And one bullet for your second  
And one bullet for your third, and your fourth, and your fifth, and your sixth-  
And we're just getting started

Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir  
Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir

One shot, one kill- Never question  
One shot, one kill- No excuses  
One shot, one kill- No regrets  
I'm ready when you are sir-  
Ready when you're ready sir

Got one bullet for the temple  
And one bullet for the mosque  
And one bullet if you worship Christ-  
And when we take your life we'll nail your ass to a wooden cross

One bullet for your savior  
And one more just for fun  
We got a bullet with your name on it  
Same sonnet  
Prophets profit when I'm holding a gun

Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir  
Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir

One shot, one kill- Never question  
One shot, one kill- No excuses  
One shot, one kill- No regrets  
I'm ready when you are sir-  
Ready when you're ready sir

One shot, one kill- Never question

One shot, one kill- No excuses  
One shot, one kill- No regrets  
I'm ready when you are sir  
Ready when you're ready sir

Pay for your faith

There will be hell to pay  
There will be hell to pay  
There will be hell to pay for your hate

There will be hell to pay  
There will be hell to pay  
There will be hell too  
Never mind- Fuck it

Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir  
Ready when your ready - Ready when your ready  
Ready when you are sir - Ready when you are sir

Never question  
No excuses  
No regrets  
I'm ready when you are sir-  
Ready with the shot sir

One shot, one kill- Never question  
One shot, one kill- No excuses  
One shot, one kill- No regrets  
I'm ready when you are sir  
Ready with the shot- Come on

There will be hell to pay  
There will be hell to pay  
There will be hell to pay for your hate

There will be hell to pay  
There will be hell to pay  
There will be hell too  
Never mind- Too late
