

# Dark As Night

Genuflect

Let's take a trip through the darkness in all of us  
Our final destination shall remain anonymous  
We're creeping through the forest  
Down the path to No More Consequences  
Hiding from the ghosts  
And the goblins  
And our skeletons  
You never know when your time is up  
You never know when you're going to die  
So say your prayers and pack your bags and kiss the ones you love goodbye  
Now follow me down into the deep  
Who knows what we will find?  
Come on let's take a trip to a place-  
Where the sun don't shine

I am on my way

I am walking through the valley of the shadow of eternal darkness  
Hopping over coffins  
Often stopping, talking to the carcass  
One particular one caught my eye-  
It was the angel's body  
Opened up her eyes  
Fantasizing got me thinking naughty  
Now she's got me looking over my shoulder  
Offered me her sin for my soul  
So I told her,  
If you can share your body baby,  
I can share the wine  
Come on let's take a trip to a place-  
Where the sun don't shine

I am on my way  
I am all alone in the dark  
In the dark  
Dark as night

I've never had a God  
I don't need one  
Anyone can see that I am right where I want to be  
You've never had a heart  
You don't need one  
Anyone can tell that you're just another pretty shell

You- will- not- see- God- when- you- die

I am on my way

I am racing to escape my fate  
I take it Satan's got my number  
Armageddon's coming  
Overhead I hear the rolling thunder  
I've given away my hate  
Now I must state what I'm about  
I'll do whatever it takes to make this statement  
Face it, faith is fake  
It's LIGHTS OUT
