

Devil dance

Genuflect

And a voice said....

Come out, come out, wherever you are
I'll be your king now people-
You can call me God
You better bow down cuz I made you all that you are
I beat the devil down myself-
I'm laying down the law
Yeah, I'm dropping plagues from Egypt to Abu Ghraib
Respect is what you'll pay
Now follow me or get out the way
And pray for a quick death cuz I will leave nothing left
Motherfucking right - Just serve, worship, and watch your step
You try buying me out - And I will make you pay
They try smoking me out - And I'll burn 'em away
You cast a shadow of doubt - And I'll bring the pain
Now bow down and drown in my REIGN

Let it go - Let it go
Sleep deep - Come on and do the Devil's dance
Let it go- Let it go
Free will never had a fucking chance
Let it go - Let it go
Sleep deep - Come on and do the Devil's dance

Wake up and get your MOURNING started
Darkness has departed
If it's broke- You bought it
There's no refunds, and there is no returning
If you're right you're serving
If you're wrong- You're burning
I'll cut you ample slack to tie your noose
But never cut your loose
You better love to be used
Cuz I contend that I'm your only friend
I am your only mend
I am your lonely end

You're dying but don't stop from living it up
You're dying but don't stop
(you're living in a dream)
You're dying but don't stop from living it up
Yeah, your dying but soon you'll be dead
You're dying but don't stop from living it up
You're dying but don't stop
(you're living in a dream)
You're dying but don't stop from living it up
Yeah, your dying but soon you'll be dead

Don't sweat it, just forget about it
If you think- You'll doubt it
If you blink- You'll rout it
The words were written to remind you all-
To keep your blinders on
Remember you've been reborn
I'll cut you ample slack to hang your neck
And when you genuflect-

You better pay respect son
Cuz I contend that I'm your only friend
And as your soul descends-
I'll transcend pretend to your end

You're dying but don't stop from living it up
You're dying but don't stop
(you're living in a dream)
You're dying but don't stop from living it up
Yeah, your dying but soon you'll be dead
You're dying but don't stop from living it up
You're dying but don't stop
(you're living in a dream)
You're dying but don't stop from living it up
Yeah, your dying but soon you'll be dead

And a voice said...
Bow down and drown in my REIGN
I'm dropping plagues like commercial holidays
Respect is what you'll pay
Now follow me or get out the way
And pray for a quick death cuz I will leave nothing left
Motherfucking right - Just serve, worship, and watch your step
That's the way it is
It goes on and on and on
That's just the way it is
So save yourself- follow me
Bow down and drown in my REIGN
Bow down - Come and drown in my REIGN
Bow down and drown in my REIGN
Bow down and drown

Let it go- Let it go
Free will never had a fucking chance
Let it go - Let it go
Sleep deep- Come on and do the Devil's dance
Let it go- Let it go
Free will never had a fucking chance
Let it go - Let it go
Sleep deep -
Come on and do the Devil's Dance
