

# Head Hearse

Genuflect

You swallow shit like sheep follow shepherds  
Walking in your sleep - Sleep walking in your head hearse  
Yeah, you swallow shit like sheep follow shepherds  
Take a deep breath and dive in head first

Dive in head first

Now you know  
You know I'm cynical  
I'm cynical, I'm fucking cynical  
If I could, I would- I'd set the world on fire  
It's all political,  
It's criminal-  
Beyond critical  
Yet you don't even see it cuz there's "none so blind"  
And you never question, never second guess them, never press them  
You just cling to your possessions like a sinking ship  
They're waging war against the poor behind the doors of your distractions  
Cashing in on your inaction  
Man you make me sick!

And I say you swallow shit like sheep follow shepherds  
Walking in your sleep - Sleep walking in your head hearse  
Yeah, you swallow shit like sheep follow shepherds  
Take a deep breath and dive in head first

Dive in head first-  
Walking in your sleep - Sleep walking in your head hearse

Oh, sweet dreams - Ignorance is bliss  
Bring the violence  
Bring the Lies  
Close your eyelids  
Oh, sweet dreams - Ignorance is bliss  
Sleep deep - Sleep deep in ignorance

Take a look around you  
Notice everyone is following the leader  
Never even thought to question why  
You're just a slave within a system you don't even know you live in  
Yeah, the walking dead are calm beneath those watchful eyes  
So- Come on consumers- consume, consume!  
Put the metaphores to work, the letters spell your doom  
And when the zero hour comes and you combust in fire  
Just sit back and watch your time expire  
Watch it all go down  
Watch the daylight - turn to darkness  
Watch the mountains return to the seas  
Watch the children - burn to ashes  
Watch them scatter like leaves in the breeze  
Watch the whole world - stand corrected  
Watch it all disappear in a blurr  
Feel the wrath of the earth we've neglected  
And watch how fast she'll take back what we took from her

Realize this is where you're going  
Never saw it coming-

You never saw it coming  
Realize this is where you're headed  
Never saw it coming-  
You never saw it coming

Yeah, you swallow shit like sheep follow shepherds  
Walking in your sleep - Sleep walking in your head hearse  
Yeah, you swallow shit like sheep follow shepherds  
Take a deep breath and dive in head first

Oh, sweet dreams - Ignorance is bliss  
Bring the violence  
Bring the Lies  
Close your eyelids  
Oh, sweet dreams - Ignorance is bliss  
Sleep deep - sleep deep in ignorance

Dive in head first!
