

## Here and Now

Genuflect

You started it started the whole world turning  
You wanted it wanted it all

I've seen angels in my life  
Praying for my soul to rise

Here and now there's no starting this over  
I'm on my own and i will die alone

You wanted us wanted us all to feel you  
You haunted us haunted us all

I've seen demons in my mind  
Waiting for my soul to die

Here and now there's no starting this over  
I'm on my own and i will die alone

Here and now there's no starting this over  
I'm on my own and i will die  
And i will die  
And i will die alone

Nothing to say  
Nothing to say  
Nothing to say pull me down  
Nothing to say  
Nothing to say  
Nothing left in me now 'cause

I can't feel you

I just want to go back cant go back and start again

Here and now there's no starting this over  
I'm on my own and i will die alone

Here and now there's no starting this over  
I'm on my own and i will die  
And i will die  
And i will die alone
