

Long Way Home

Genuflect

Stay strong and carry on-
You're on your way

It's a long way home
It's a long way home

You're going to get it wrong but carry on
Don't delay

It's a long way home
It's a long way home

Now everybody's gone but you belong
You're all alone

It's a long way home
It's a long way home

But there's another dawn- So battle on
You're on your own

It's a long way home
It's a long way home from here

This is your shadow side
Stare into your eyes
You can't hide from your shadow side
All you know are lies
And you'll die with your shadow side
This is your demise
You can't hide from your shadow side

Stay strong and carry on-
You're on your way

It's a long way home
It's a long way home

You're going to get it wrong but carry on
Don't delay

It's a long way home
It's a long way home

Now everybody's gone but you belong
You're all alone

It's a long way home
It's a long way home

But there's another dawn- So battle on
You're on your own

It's a long way home
It's a long way home

Just how much could you ever take?

Trust in love til it evaporates

Now you are on your own-
And it's a long way home
