

Masquerade

Genuflect

Push it
Punch it
Do it
This is your only chance
Blow it
Drink it
Smoke it
These are your addictions
Fuck it
Rub it
Suck it
Grope it
Stroke it
No, don't
Let's be friends
The whole God damned world is out to get you
It's all good, it's all educational

Better run for cover now
This is hell man
The walls of society
Break 'em down
So long sorrow

Better run for cover now
This is hell man
The Gods of hypocrisy
Take 'em out
No more tomorrow

Break it
Bash it
Burn it
Let's cause some destruction
Buy it
Sell it
Steal it
These are our decisions
Love 'em
Leave 'em
Beat 'em
Rip his fucking head off, than he'll see
The whole God damned world is out to get you
It's all good, it's all avocational

Better run for cover now
This is hell man
The walls of society
Break 'em down
So long sorrow

Better run for cover now
This is hell man
The Gods of hypocrisy
Take 'em out
No more tomorrow

Get it on
Represent it all
Get it on
Get it on
It's all adrenaline
Represent it all
Everybody in the middle
Come on everyone
Put your hands
Do it!
Suicidal
I'm alone in the dark
I've got that pale shadow getting under my skin
I feel like nobody really knows who I am
With all that temptation
Can you feel it in your psyche?
Can you feel it
Psychopathic infection
Dig deep and put me under the ground
Some people sleep walk just to feel they're protected
But these walls that have been built up all around me
I will break them all DOWN 2x

Get the best of me
You fuckers want to get the best of me
All these fuckers want to get the best of me
All these fuckers don't KNOW MY NAME

Better run for cover now
This is hell man
The walls of society
Break 'em down
So long sorrow

Better run for cover now
This is hell man
Fuck your philosophy
Break 'em down
No more tomorrow
