

Different dollar, different color, different culture
They're not "one of us" so let them die
We're too busy cooking TV dinners-
Too busy watchin' "Idol" while we idly stand by
So wave goodbye to rationality
Notify all the next of kin
I've got a flag, and a vengeful God
It's so cold and dark out-
Let us in-
Let us Sin!

Roll- Just drop and roll- Just drop and roll-
Just drop and roll- Put the fire out

Roll- Just drop and roll- Just drop and roll-
Just drop and roll- Til you black out

Kill em all- Make them famous
Kill em off- Make them pay
Kill em all- Kill em off- Don't think twice
Kill em all- Make them pay

No food, no water, no meds- Fuck em!
Someone told me that they spread disease
And I don't give a shit - What the fuck is ignorant?
I'll start dropping crumbs when they're on their fucking knees
Better believe- You better believe we mean to kill em off-
Kill em all- Kill em quick
False security is my best friend
It's so cold and dark out-
Let us in-
Let us Sin!

Apparition - Am I aberrational?
Deny contradiction
Am I conformational?

Kill em all- Make them famous
Kill em off- Make them pay
Kill em all- Kill em off- Don't think twice
Kill em all- Make them pay

Burn- Just drop and burn - Just drop and burn
Just drop and burn- Every last one

Burn- Just drop and burn- Just drop and burn
Just drop and- Kill em off-
Kill em all!
