

Bella Maria

George Baker Selection

I have always been a dreamer
I will never settle down
Yes, the grass is always greener over there
The highway is my home

Let me be a freeborn lover
Let me be just what I am
Let me live and let me love just for a while
Then we try again

Bella Maria, come on, don't cry
There is the crazy moon in the sky
It was so good to be here with you
But I must do what I must do

Bella Maria, come on, don't cry
This is the time that we say goodbye
It was so nice to be a while with you
But I must do what I must do

Come on, baby, let me kiss you
Yes, forever I will miss you
Memories are going with me
On the open roads, girl I have to go

Bella Maria, come on, don't cry
This is the time that we say goodbye
It was so nice to be a while with you
But I must do what I must do

Bella Maria, come on, don't cry
There is the crazy moon in the sky
It was so good to be here with you
But I must do what I must do

Bella Maria, come on, don't cry
This is the time that we say goodbye
It was so nice to be a while with you
But I must do what I must do

Come on, baby, let me kiss you
Yes, forever I will miss you
Memories are going with me
On the open roads, girl I have to go

Bella Maria, come on, don't cry
This is the time that we say goodbye
It was so nice to be a while with you
But I must do what I must do

It was so nice to be a while with you
But I must do what I must do
