

Once I was a right young cowboy
I travelled every day
Every night in the cantina
Boozin' all the blues away
But since the day I met my Rosie
I feel like another man
I will always love her
I will never leave her
Doin' all the best I can

Oh, Rosita
I never knew that I could love you the way that I do
Oh, Rosita
In my whole life there was never a woman like you
Oh, Rosita
Dream me a dream and I'll be here, forever your man
I will always love you
I will never leave you
Doin' all the best I can

When I marry my sweet Rosie
She will be dressed up in white
I can hear the church bell ringing
Then I love her through the night
No, for me there's no more fighting
Now that I'm a wiser man
I will always love her
I will never leave her
Doin' all the best I can

Oh, Rosita
I never knew that I could love you the way that I do
Oh, Rosita
In my whole life there was never a woman like you
Oh, Rosita
Dream me a dream and I'll be here, forever your man
I will always love you
I will never leave you
Doin' all the best I can
I will always love you
I will never leave you
Doin' all the best I can
