

## Santa Lucia By Night

George Baker Selection

Catch a falling star and tell me you love me  
Say you love me, tell me you love me.  
Hold it in your hand and say that you need me  
The words I wanna hear.  
Loneliness`s a road I left far behind me  
Far behind me, so far behind me  
Happiness comes in my life if you want me  
So give it all to me.  
Do you wanna stay my love  
Tell me do you wanna stay my love  
Underneath the stars above?  
Santa Lucia by night - romantic feelings under the starry light  
.  
No more worries, no more troubles to care  
It's love that we share, it's love that we share.  
Santa Lucia by night - sail on the wings of love  
when you hold me tight  
there's a place for you and I in this time  
If you will be mine, if you will be mine.  
Come and sing this happy melody  
Sing it with your soul, it makes you free.  
Listen to the music of your heart  
In the Italian night we can be alright.  
Santa Lucia by night - romantic feelings under the starry light  
.  
No more worries, no more troubles to care  
It's love that we share, it's love that we share.  
Catch a falling star and tell me you love me...  
Do you wanna stay my love  
Tell me do you wanna stay my love  
Come and sing this happy melody  
Santa Lucia by night - romantic feelings under the starry light  
No more worries, no more troubles to care  
It's love that we share, it's love that we share.  
In the morning till the night.
