

Santa Lucia By Night

George Baker Selection

Catch a falling star and tell me you love me
Say you love me, tell me you love me.
Hold it in your hand and say that you need me
The words I wanna hear.

Loneliness`s a road I left far behind me
Far behind me, so far behind me
Happiness comes in my life if you want me
So give it all to me.

Do you wanna stay my love
Tell me do you wanna stay my love
Underneath the stars above?

Santa Lucia by night - romantic feelings under the starry light
.

No more worries, no more troubles to care
It's love that we share, it's love that we share.
Santa Lucia by night - sail on the wings of love
when you hold me tight

there's a place for you and I in this time
If you will be mine, if you will be mine.

Come and sing this happy melody
Sing it with your soul, it makes you free.
Listen to the music of your heart
In the Italian night we can be alright.

Santa Lucia by night - romantic feelings under the starry light
.

No more worries, no more troubles to care
It's love that we share, it's love that we share.
Catch a falling star and tell me you love me...

Do you wanna stay my love
Tell me do you wanna stay my love

Come and sing this happy melody

Santa Lucia by night - romantic feelings under the starry light
No more worries, no more troubles to care
It's love that we share, it's love that we share.
In the morning till the night.
