

Love Remembers

George Benson

People come and people go
They touch our lives and never know...
Their faces fade as memories grow
And then you wish that time would slow

But all you can be sure
While you're regretting (you can be sure)
What you're forgetting
Oh Oh Oh Oh Oh Oh Oh

Love remembers
What you forget
(love remembers)
Love remembers
(love remembers) What you forget
(love remembers)

More and more we are at lost
We make ends meet but what a cost
There's no time left to share what's real
No time to sort out what we feel
but ohh, you can be sure while time is passing (you can be sure)
all that's lasting
ohhhhh oohhhh

Love remembers (what you forget)
Love remembers (every little thing)
Love remembers
Love remembers (every single thing)
What we forget (love remembers)
More than you can forget - September dreams
(love remembers)

Time is passing (you can be sure)
All that's lasting

Love remembers (love remembers)
What we forget (love remembers)
Every little thing
Love remembers (love remembers)
What we forget (love remembers)

Love remembers
Love remembers
Love remembers
Remember
