

# Love Will Come Again

George Benson

Love will come again  
It will captivate you like before  
Love will come again  
Love once more  
Love will come again  
It will steal into your heart and soul  
Love will come again  
Wait and see

Oh no, it's not over  
You've got to try  
Just try to remember  
How it used to feel  
'Cause I know

Love will come again  
It will captivate you like before  
Love will come again  
Love once more  
Love will come again  
It will steal into your heart and soul  
Love will come again  
Wait and see

I'm here when you want me  
Yes, somebody cares  
All yours, when you're ready  
When your heart is healed

Bury the past  
Look to what's in store  
Forget what has passed you by  
Love will come again

Love will come again  
It will captivate you like before  
Love will come again  
Love once more  
Love will come again  
It will steal into your heart and soul  
Love will come again  
Wait and see
