

# Medicine Man

George Benson

This town has no mercy  
When you're on your own  
When there's no one close to you  
No place to call your home  
In the back alley shadows  
My body yearns, the pain it grows  
A needle holds the solution  
Feel the sting no let it flow  
A dangerous game - no place to hide  
I'm looking for you to keep me satisfied

Medicine man  
You hold the key - unlock the door  
Like a knife in your hand  
A spell that you cast for evermore

I need a shot of satisfaction  
My body aches - my blood runs cold  
I need a killer chain reaction  
That's gonna rock me to the bone  
I'm burnin' inside - i'm under the gun  
You got what it takes - you know you're the one

Medicine man  
You hold the key - unlock the door  
Like a knife in your hand  
A spell that you cast for evermore

A dangerous game - no plave to hide  
I'm lookin' for you to keep me satisfied

Medicine man  
You hold the key - unlock the door  
Like a knife in your hand  
A spell that you cast for evermore
