

One Like You

George Benson

I got something to say to you....I'm gonna bring it down front
I'm not gonna pull any punches, baby....I'm gonna be blunt
I want you so bad....I wanna make love to you
I decided....I'm not gonna hide it

All my life I've been searching for (one like you)
Somebody I could give (myself to)
Who'll make me feel good (through and through)
So why wouldn't I be putting my focus on you

You've excited a part of me.....way down deep
And this feeling I get from you....I wanna keep
I hope you see fit...to come on and be with me
If you let me....I promise you won't regret me

All my life I've been searching for (one like you)
Somebody I could give (myself to)
Who'll make me feel good (through and through)
So why wouldn't I be putting my focus on you
All my life I've been searching for (one like you)
Somebody I could give (myself to)
Who'll make me feel good (through and through)
So why wouldn't I be putting my focus on you

I'm hoping you are hoping to me being with you, babe

Bridge: Looking through this window of opportunity....I can see clearly you'd be with me
This is my chance and I'm not gonna blow it....this is our time and I want you to know it

All my life I've been searching for (one like you)
Somebody I could give (myself to)
Who'll make me feel good (through and through)
So why wouldn't I be putting my focus on you
All my life I've been searching for (one like you)

Who'll make me feel good (through and through)
So why wouldn't I be putting my focus on you

Why wouldn't I try puttiin' my faith in us
I'm hoping you are hoping to me being with you
