

# Please Don't Walk Away

George Benson

I've been alone now for so long  
Afraid that love would turn out wrong  
Playing games with my heart  
I'd find love then I'd run

Please don't walk away from me tonight  
I know we'll make it baby  
Give me one more chance to make it right  
Oh, baby, please don't walk away

I guess I've learned what I've been told  
Love keeps the heart from growing old  
And I'll be there this time  
Our light will never die

Please don't walk away from me tonight  
I know we'll make it baby  
Give me one more chance to make it right  
Oh, baby, please don't walk away

I cried and I worried afraid love would hurt me  
I'm ready to open the door  
Please listen to me 'cause this time it won't be like  
before

Please don't walk away from me tonight  
I know we'll make it baby  
Give me one more chance to make it right  
Oh, baby, please don't walk away
